## PROFESSIONAL SUMMARY

Curious and impact-driven full-stack developer with hands-on experience in React, Next.js, Node.js, NestJS, and Fastify. Strong focus on building scalable web applications, backend orchestration, and clean modular architectures. Actively exploring Generative AI, DevOps fundamentals, and system-level problem solving. Seeking frontend or full-stack intern opportunities.

## WORK EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                    |                      |
